1. Please ensure you hold a current MA National Licence\* if you are obtaining an FIM Licence. (\*Duration of FIM Licence)
2. Application form, completed clearly and in full (page 2)
3. Payment of licence fee by cheque, money order or credit card
4. Medical Examination form. Must be completed by a medical practitioner (Appendix A & B – pages 5-6).

### Important Information

- It is imperative that each rider reviews the FIM Anti-Doping Code which is found at: [www.fim.ch](http://www.fim.ch) by going into the Rules and Codes section and selecting the "Anti-Doping Code". **Do not** sign the Declaration form which is a part of this application unless you have **fully read and understood** the Code.
- To be eligible for a competition licence, a rider must be an Australian citizen or be a permanent resident eligible for Medicare, or hold a licence from their FMN with insurance to FIM standard and produce a start permission.
- Passport photographs are no longer required for an FIM licence application.
- You are not required to apply for an International Licence when competing in an International event held in Australia. You can compete on your current Australian National Competition Licence.
- This does not apply to World Championships being conducted in Australia. You will need to apply for an International licence if you are competing in World Championships held in Australia.
- If you are intending to contest any World Championship event you must apply for a specific Championship event licence. Prices for these are listed on the application form.

## MEDICAL HISTORY AND EXAMINATION

Every competitor taking part in motorcycle events must be medically fit. For this reason the history and an examination are essential. The Medical History and Examination forms are found in Appendices A and B. The Medical Examination Certificate is valid for not more than one year. In the event of serious injury or illness occurring since the last medical certificate was issued, a new examination and medical certificate are necessary.

### 1. GUIDELINES FOR THE EXAMINING DOCTOR (Recommended to be the Rider's regular doctor)

The examination should be performed by a doctor familiar with the applicant's medical history. The examining doctor must be aware that the person to be examined is applying for a licence to enter motorcycle events. The purpose of the examination is to determine whether the applicant is physically and mentally fit to control a motorcycle in order to ensure the safety of other competitors, officials and spectators during an event, having regard to the type of event for which the competitor is applying.

Certain disabilities exclude the granting of a licence.

#### Limbs

The applicants should have sufficient function of their limbs to permit full control of their machine during events. In the case of loss or functional impairment of all or part of a limb or limbs the applicant may be referred for the opinion of the medical commission of his FMN.

#### Eyesight

The minimum corrected visual acuity must be 6/6 [10/10] with both eyes open together. The minimum binocular field should measure **160 degrees with 70 each side, 30 vertical.**

Spectacles, if required, should be fitted with shatterproof lenses and contact lenses, if worn, should be of the "soft" variety.

A person who suddenly loses sight in one eye will not be allowed to hold a licence for a minimum of three years have elapsed, except for Trial which would remain as one year, with vision not less than 6/6 [10/10] in the one eye. Satisfactory judgement of distance and wearing double protection when competing would be required for all riders with vision in only one eye.

If there is doubt about colour vision, the applicant, for any event, except Trial, must be able to accurately differentiate between red, green, blue, yellow, black and white flags. A simple practical test is recommended under conditions similar to those of a race.

#### Deafness

Total deafness in both ears will prevent an applicant from obtaining a licence except for Trials.

#### Diabetes

In general, it is not considered advisable for diabetics to enter motorcycle events. All well controlled diabetics not subject to hypoglycaemic or hyperglycaemic attacks, and having no neuropathic complications, nor any ophthalmoscopic evidence of vascular complications, may be passed as fit to compete.

#### Cardio-Vascular System

In general, a history of myocardial infarction or serious cardio-vascular disease would normally exclude a rider from speed events. Special attention should be paid to blood pressure and cardiac rhythm disorders. In such cases a certificate from a cardiologist including the results of any test the cardiologist considers necessary, must be submitted with the medical examination form.

With the exception of Trial any rider over the age of fifty years must have an exercise tolerance electrocardiogram performed, and the result must be favourable. In Trial, an exercise tolerance electrocardiogram is required for any rider over 50 years if there are known significant risk factors for or history of cardiac disease.

#### Neurological and Psychiatric Disorders

In general, applicants with a serious neurological or psychiatric disorder will not be granted a licence.

#### Fits or Unexplained Attacks or Loss of Consciousness

A licence will not be issued if the applicant is an epileptic, has suffered a single epileptic fit, or has suffered an unexplained sudden loss of consciousness.

#### Alcohol and Drug Dependence

Applicants with an alcohol or drug dependence problem will not be accepted.

### 2. PROCEDURE IN CASE OF DOUBT OF MEDICAL FITNESS

The examining doctor may not feel able to approve an applicant on medical grounds. In such a case he will fill in the certificate, sign it having ticked the relevant box, and then send it to applicant's FMN with his observations, including past history. If necessary, he shall request that the applicant should be examined by a member of the medical committee of the FMN, or a doctor appointed by the FMN.

### 3. COST OF MEDICAL EXAMINATION

Any fee charged for the examination or completion of the medical certificate is the responsibility of the applicant.
