

# MOTORCYCLING AUSTRALIA POLICY

|                             |  |
|-----------------------------|--|
| <b>Title:</b>               | <b>Environmental Sustainability Policy</b>   |
| <b>Last Review Date:</b>    | September 2020   |
| <b>Next Review Date:</b>    | September 2022   |
| <b>Responsible Persons:</b> | Motorcycling Australia Board   |
| <b>Authority:</b>           | This document is a Policy made under clause 15 of the MA Constitution. It is binding on all Members of MA and volunteers, and all employees of MA and its State Controlling Bodies, and is to be interpreted in accordance with the MA Constitution. |

## 1. PURPOSE

This Policy demonstrates MA's commitment to incorporating principles of environmental sustainability into the conduct of the Sport.

## 2. DEFINITIONS AND INTERPRETATION

- 2.1 **Event** means the organised motorcycling activity described in a permit issued by MA or a State Controlling Body.
- 2.2 **MA** means Motorcycling Australia Ltd.
- 2.3 **Promoter** means the holder of an Event permit
- 2.4 **Sport** means the sport or recreational activity of motorcycling.
- 2.5 Headings are for convenience only and do not affect interpretation and unless the context indicates a contrary intention.
- 2.6 "Includes" in any form is not a word of limitation.
- 2.7 A reference to "month" is to a calendar month.
- 2.8 A reference to "\$" or "dollar" is to Australian currency

## 3. POLICY

To further MA's goal of leading a culture of continuous environmental awareness and stewardship in the Sport, MA will:

- 3.1 Require Promoters comply with relevant law, governmental regulation and policy, and site agreements, designed to protect the environment;
- 3.2 Implement a national Environmental Framework and Management Plan with the aim of minimising the potential for Events to cause adverse environmental impacts, and to provide guidance on measures to ameliorate environmental impacts relating to:

- 3.2.1 Noise emissions;
- 3.2.2 Soil and ground water contamination (e.g., pit/motorcycle clean up practices);
- 3.2.3 Emissions to air (e.g. fuel vapour, dust, fumes, and odour);
- 3.2.4 Protection of flora and fauna;
- 3.2.5 Discharges to water catchment areas (e.g. spills of fuel, brake fluids, coolant, oils, litter, degreasing, cleaning agents; and
- 3.2.6 Protection of cultural heritage.
