Note (excluding Trial & SX): The Machines listed above are permitted to compete in the appropriate or equivalent capacity class at off road events.
All Machines must meet Australian Standards for Electric Vehicles and pass scrutineering prior to being permitted to compete.

***The Stark Varg must comply with the HP limits set above.**

This list is subject to change at any time and all electric machines must comply with Appendix D of the Manual of Motorcycle Sport (MoMS).
Electric machines that are not listed above and do comply with class regulations and Appendix D of the MoMS may be eligible to compete with the approval of MA.

Disclaimer:
Due to continual advancements in electric motorcycle technology, this Electric Machine Approved Competition List is current at the time of distribution and remains so until any standard referred to in the GCRs makes any machine ineligible by the introduction of new rules or changes in technical specifications.
Always refer to the Manual of Motorcycle Sport (MoMS) for the latest requirements on electric machine eligibility for MA-sanctioned events.

Release Date: 30th October 2025
